HYDROGEN MACHINES
SERIOUS HYDROGEN MACHINES

Spa & Recovery Catalogue

Hydrogen systems for recovery suites, spa and plunge pools

Recovery is one of the trends shaping the next phase of the US$2.7 trillion global wellness market (McKinsey Future of Wellness research). Add hydrogen to your recovery and contrast-therapy offering: hydrogen-rich water for spa and plunge pools, and high-flow hydrogen inhalation for recovery suites. Published prices, a 2-Year Warranty and partner pricing for multi-unit and multi-property orders.

The range for spas and recovery suites

Four systems for recovery, contrast-therapy and spa programmes, chosen by space and session volume

HERO Hydrogen Spa

For spa pools and plunge pools. 20 L/min of hydrogen-rich water at 3,000–5,000 ppb dissolved hydrogen, recirculated through a balance tank or directly in the pool.

HERO Inhaler Pro 3000

For a recovery suite or treatment room. 2,000 ml/min of hydrogen at 99.991% purity, two independent outlets, castor wheels.

HERO Inhaler Pro 4200

For busier suites. 2,800 ml/min of hydrogen at 99.99% purity, touchscreen control, white or black finish.

HERO Clinic Series

For recovery centres and high-volume spas. 4,000 to 8,000 ml/min of hydrogen, 4 hydrogen and 2 oxygen outlets, twin 3 L tanks.

Why properties buy from us

- **Published prices.** Every price is on our website; there is no sales call needed to see it. Partner pricing applies to multi-unit and multi-property orders.
- **PEM/SPE electrolysis.** Hydrogen is generated on site from purified water. Nothing is added to the water, and there are no gas cylinders to store or replace.
- **2-Year Warranty.** Free replacement parts with step-by-step video fitting guides. Full terms: hydrogenmachinesusa.com/warranty.
- **Lab-tested.** Test reports and certificates of conformity are available on request.
- **Delivered to your door.** Shipped by UPS with full tracking, duties paid to the United States.
- **Direct support.** Email and WhatsApp support, with replacement parts shipped directly to you.

Choosing a system

Your space	Recommended system
Spa pool, plunge pool or hydrotherapy pool	HERO Hydrogen Spa
One recovery suite or treatment room	HERO Inhaler Pro 3000 or Pro 4200
Several suites, or a recovery centre with many sessions a day	HERO Clinic Series, or several Pro units

Hydrogen Machines products are sold as general wellness equipment. Specifications describe the hardware; no medical or therapeutic claims are made.

SPA POOLS AND PLUNGE POOLS

HERO Hydrogen Spa

A stainless-steel cabinet on castors that generates hydrogen on site from purified water and dissolves it into pool water as nano-bubbles. It draws from an open balance tank or directly from the pool, recirculates until the target dissolved-hydrogen level is reached, and returns the water to the same place.

US$16,311 per unit · partner pricing for multiple units

Hydrogen water output	20 L/min
Dissolved hydrogen	3,000–5,000 ppb (sensor-verified) 2,000–4,000 ppb (methylene-blue titration)
Hydrogen generation	On site from water, PEM/SPE electrolysis
Suitable for	Spa pools, plunge pools and hydrotherapy pools, via a balance tank or directly in the pool
Input power	800 W · 100–240 V, 50/60 Hz
Dimensions (W × D × H)	550 × 350 × 970 mm
Weight	83 kg including accessories
Cabinet	Stainless steel on castors, touchscreen control, IP54
Electrolysis water	Distilled or RO water, TDS ≤ 50 ppm
Commissioning	Remote-guided commissioning included

Installation: two methods

A. Balance tank — for pools with a plant room and balance tank

Open balance tank
Non-pressurised water

→

HERO Hydrogen Spa
Draws from the tank and recirculates to the target level

→

Returns to the tank
Treated water stays in the loop

→

Pool circulation
The pool's own pump delivers the water

B. Direct in the pool — for spa and plunge pools without a balance tank

Inlet hose
Placed in the spa or plunge pool water

→

HERO Hydrogen Spa
Beside the pool; dissolves hydrogen into the water

→

Return hose
Hydrogen-rich water flows back into the pool

→

Recirculates
Until the target dissolved-hydrogen level is reached

Important: the inlet draws from open, non-pressurised water only (a balance tank or the pool itself). Never connect it to a pressurised supply or tap.

RECOVERY SUITES · PROFESSIONAL SERIES

HERO Inhaler Pro 3000

A high-flow inhaler for treatment rooms and recovery suites, with a heavy-duty chassis on castor wheels and quiet three-speed operation.

2,000 ml/min hydrogen

+ 1,000 ml/min oxygen = 3,000 ml/min total gas. The model number shows total gas output.

US$5,697 per unit · partner pricing for multiple units

Specifications

Hydrogen output	2,000 ml/min at 99.991% purity
Oxygen output	1,000 ml/min, separated at the membrane
Outlets	Two independent outlets
Flow control	Three-speed (low, medium, high)
Session timer	30-minute steps, up to 360 minutes, auto shut-off
Water tank	3.0 L · distilled or purified water, TDS < 5
Noise	≤ 55 dB at 1 m on high (≤ 48 dB on low)
Power	880 W · 100–240 V universal input
Dimensions	260 × 340 × 420 mm
Weight	18 kg net · 22 kg packed
Chassis	Galvanised steel on castor wheels
Included	Inhalation tubes, Y-adaptor, drain tube, water collector, hydrogen water diffusion rod, user manual

RECOVERY SUITES · PROFESSIONAL SERIES

HERO Inhaler Pro 4200

Our highest-output single inhaler, for suites with back-to-back sessions. Touchscreen control and an aluminium housing on castor wheels, in white or black.

> **2,800 ml/min hydrogen**
> + 1,400 ml/min oxygen = 4,200 ml/min total gas. The model number shows total gas output.

US$6,497 per unit · partner pricing for multiple units

Specifications

Hydrogen output	2,800 ml/min at 99.99% purity
Oxygen output	1,400 ml/min
Control	Touchscreen
Water tank	3 L · distilled or purified water, TDS < 30 ppm
Input	100–240 V, 50/60 Hz universal input
Dimensions (W × D × H)	320 × 340 × 490 mm
Weight	19 kg net · 21 kg packed
Housing	Aluminium on castor wheels · white or black
Placement	A standard power outlet in a ventilated room; no plumbing needed

RECOVERY CENTRES AND HIGH-VOLUME SPAS

HERO Clinic Series

Three high-output models for recovery centres, clinics and spas running many sessions a day. Four hydrogen outlets let up to four people share a session.

Up to 4 users · up to 8,000 ml/min hydrogen

Twin 3 L tanks, dual touchscreen panels, aluminium housing on castor wheels.

From US$9,997 per unit · partner pricing for multiple units

Model comparison

Specification	HERO Clinic 6000	HERO Clinic 8400	HERO Clinic 12000
Hydrogen output	4,000 ml/min	5,600 ml/min	8,000 ml/min
Oxygen output	2,000 ml/min	2,800 ml/min	4,000 ml/min
Total gas output	6,000 ml/min	8,400 ml/min	12,000 ml/min
Hydrogen purity		99.99%	
Outlets		4 hydrogen · 2 oxygen	
Water tanks		2 × 3.0 L · distilled or purified water	
Input voltage		110–240 V AC, 50/60 Hz	
Rated power	1,760 W	2,400 W	3,520 W
Dimensions (L × W × H)		420 × 440 × 590 mm	
Weight (net)	34 kg	35 kg	36 kg
Price (USD)	**$9,997**	**$12,997**	**$19,997**

The inhalation range side by side

Compare hydrogen output, not the model number

The number in an inhaler's model name is usually its total gas output: hydrogen plus oxygen. To compare machines fairly, look at the hydrogen figure and the price per 100 ml/min of hydrogen.

Model	Hydrogen (ml/min)	Oxygen (ml/min)	Total gas (ml/min)	Price (USD)	Price per 100 ml/min H_2
HERO Inhaler Pro 3000	2,000	1,000	3,000	$5,697	$285
HERO Inhaler Pro 4200	2,800	1,400	4,200	$6,497	$232
HERO Clinic 6000	4,000	2,000	6,000	$9,997	$250
HERO Clinic 8400	5,600	2,800	8,400	$12,997	$232
HERO Clinic 12000	8,000	4,000	12,000	$19,997	$250

Regular single-unit prices as of 18 November 2026. Partner pricing for multiple units is quoted on request. See hydrogenmachinesusa.com for current prices and promotions.

For pools

Model	Water output	Dissolved hydrogen	Suitable for	Price (USD)
HERO Hydrogen Spa	20 L/min	3,000–5,000 ppb (sensor-verified)	Spa and plunge pools, via a balance tank or directly in the pool	$16,311

Ordering and partner pricing

From quotation to delivery

Pricing

- **Single units:** the regular prices in this catalogue, also published on hydrogenmachinesusa.com.
- **Partner pricing:** for 2 or more units, or for supply across several properties. Tell us the quantities and we'll quote.

How to order

1. **Tell us about the property.** The number of suites or treatment rooms, and the size of any pools you want to supply.
2. **Receive a formal quotation.** It lists each unit, the partner pricing that applies, delivery terms and the 2-Year Warranty, with a secure online payment link or an invoice for bank transfer.
3. **Confirm and pay.** Online by card through Stripe, or by bank transfer.
4. **Dispatch and delivery.** Inhalers ship by UPS with full tracking, duties paid to the United States, typically within 14 business days. HERO Hydrogen Spa delivery is scheduled with you and includes remote-guided commissioning.

After delivery

- **2-Year Warranty:** free replacement parts with video fitting guides. Full terms at hydrogenmachinesusa.com/warranty.
- **90-day returns** on machines, as set out on our website.
- **Support** by email and WhatsApp, with replacement parts shipped directly to you.
